

December 2025

Subject: VORAXAZE® (glucarpidase) Shelf Life Extension

To Whom It May Concern:

The U.S. Food and Drug Administration (FDA) has approved an extension to the Voraxaze® drug product shelf life from 48 months to 60 months. For the lots referenced below, an additional year may be added to the expiration date labeled on the vial and carton.

The following lots can be used until the dates indicated below:

Description	Lot No	Labeled Expiration Date	Revised Expiration Date
Voraxaze® (glucarpidase) For Injection 1000 units/vial	2162-114A	May-2026	May-2027
Voraxaze® (glucarpidase) For Injection 1000 units/vial	2162-114B	May-2026	May-2027
Voraxaze® (glucarpidase) For Injection 1000 units/vial	2162-115A	August-2026	August-2027

For all other lots of Voraxaze® (glucarpidase), the expiration dates labeled on the packaging remains valid.
